- Communication
- Quick Learner

Education Background

- 1337 Coding School
Computer Software Engineering
Sep 2021 - Dec 2024

About Me

Front end React developer. I have been working with various technologies like React.js, NodeJS and JavaScript. I have honed my skills through collaborative work with skilled teams on numerous projects. My ability to quickly grasp new technologies is a key asset in my toolkit. I have 3+ years of experience in web development and designing. Extra knowledge in NoSQL Database, JavaScript Frameworks like Vue JS, JQuery, Angular

Projects

Clothes Shop

This project is a Clothes Ecommerce. Web App created with React.js in the Front end and Node.js, Express in the Back end, In addition to Stripe for accepting payments.

MiniRT

This project is about the beautiful world of ray tracing and how this technology works in order to create digital images.

Minishell

This project is about creating a small version of shell
